

2.4d. Program Evaluation

Describe how the PD program will be evaluated to assess the program's success on an ongoing basis. Discuss how the program will be subsequently modified to support identified teacher needs.

Administration and staff will evaluate the PD program through surveys, verbal feedback, short questionnaires, self-assessments, and collective discussion to understand if and how PD resulted in meaningful growth, change or development. We will use summative evaluations with open and close-ended questions regarding workshops, materials, topics, presenters, and general feedback. We will also form a sub-committee to evaluate and recommend improvements to PD, including analyzing the "my voice staff, parents, and students" survey and the "My School My Voice—Five Essentials" survey to assess teacher attitudes about the quality and effectiveness of PD and to improve PD. Administrators and seasoned teachers will support others in non-punitive ways to improve their instructional practice through observations and feedback sessions, opportunities for newer teachers to view and team with veteran ones, and individual PD plans to strengthen teaching. These actions will further develop our collaborative school culture and improve learning, for both staff and students.

Coalition to Revitalize Walter H. Dyett High School

To the Dyett RFP Review Team:

The attached is a representative sample of parent petition signatures in support of the proposal for *Walter Dyett Global Leadership and Green Technology High School*. Please note that the petition forms indicate support for August 2014 enrollment, which reflects the development and submission to the Board of Education of our initial proposal and outreach to the parents. We have continued to use this pre-printed form for over a year even though the August 2014 date does not reflect our extensive engagement over a several month period from 2014 through 2015. The emails and phone numbers have been redacted to ensure our parents privacy. The parent petition forms attached by no means represent the sum total of community support. We have supplied addition evidence of support in other areas of section 3 – Community Involvement.

Petition to Support Walter Dyett Global Leadership and Green Technology High School

Petition Summary and background	This petition is being circulated by the Committee to Revitalize Dyett, a coalition of prominent organizations, parents, students and community residents committed to providing our students with a world-class education in their own neighborhood.		
Action petitioned for	We, the undersigned, are parents in Bronzeville who believe that our children deserve a high quality, open enrollment high school in their own neighborhood. We support the Dyett Global Leadership and Green Technology High School and to support this effort.

Technology High School**

(29)

Petition summary and background	<i>This petition is being circulated by the Committee to Revitalize Dyett, a coalition of prominent organizations, parents, students and community residents committed to providing our students with a world-class education in their own neighborhood.</i>
Action petitioned for	<i>We, the undersigned, are parents in Bronzeville who believe that our children deserve a high quality, open enrollment high school in their own neighborhood. We support the Dyett Global Leadership and Green Technology High School and would strongly consider enrolling our children upon its' opening in August 2014. We encourage Chicago Public Schools to support this effort.</i>

Petition summary and background	This petition is being circulated by the Committee to Revitalize Dyett, a coalition of prominent organizations, parents, students and community residents committed to providing our students with a world-class education in their own neighborhood.
Action petitioned for	We, the undersigned, are parents in Bronzeville who believe that our children deserve a high quality, open enrollment high school in their own neighborhood. We support the Dyett Global Leadership and Green Technology High School and would strongly consider enrolling our children upon its' opening in August 2014. We encourage Chicago Public Schools to support this effort.
